Overview of Training Course on “Supplier Quality Professional: An Introduction (ASQ ConnEx Course)”

“Supplier Quality Professional: An Introduction (ASQ ConnEx Course)” by Shaarkview Consultancy

• Training Course by Seetharam Kandarpa, Shaarkview [1]

Format: Live Virtual/ Face-to-Face

Learn how to effectively select, audit, and manage suppliers for maximum organizational benefit. This curriculum is designed for experienced quality professionals that are new or relatively new to supplier quality and supplier management. The curriculum is comprised of three separate, interrelated courses:

- **Introduction to Supplier Management**: Introduces you to foundational supplier management concepts and principles and teaches you how to design and implement a supplier management program.
- **Auditing for Improved Supplier Performance**: Emphasizes the importance of auditing suppliers to ensure continuous improvement and shows you how to develop an effective supplier auditing system.
- **Quality/Engineering Tools for Supplier Management**: Describes quality and engineering tools you can use to manage suppliers across all seven phases of the supplier management process; Risk Management, Selection, Part Qualification, Evaluation— Problem Identification, Development and Improvement, Performance Monitoring, Supplier Re-evaluation.

To ensure a robust, engaging learning experience, all three courses leverage case studies, individual and group activities, hands-on exercises, and knowledge checks to help you transform the conceptual into the practical.
