Overview of Training Course on “Corrective and Preventive Action (ASQ ConnEx Course)”

“Corrective and Preventive Action (ASQ ConnEx Course)” by Shaarkview Consultancy

• Training Course by Seetharam Kandarpa, Shaarkview [1]

Format: Live Virtual/ Face-to-Face

- Many companies do not get the benefit of proper and thorough corrective & preventive action (CAPA, or CA/PA) as staff time, skill, tools and an in-depth understanding of a CAPA system are often lacking internally.
- Learn how to leverage this key component for improvement in a quality management system to benefit your organization.
- Get an in-depth understanding of how to conduct corrective & preventive action (CAPA) in response to non-conforming product or services.
- Learn about proven methods and approaches for ensuring problems are adequately contained, and then prevented. Cover roles and responsibilities, including supplier responsibilities for defining, acting on, and closing CAPA issues.
- Learn how to define the problem, assess conditions for root causes, define proper actions to contain and prevent the problem, and then develop a plan to deploy those actions. Common methods, including the 8D approach, are covered and tools for performing incident and root cause analysis, and the use of various CAPA checklists, are provided. Use both case studies and participant situations to apply the methods, tools and checklists during the course. Go away with a thorough understanding of a systematic, tool-based CAPA system.

“Corrective and Preventive Action (ASQ ConnEx Course)” by Shaarkview Consultancy

• Training Course by Seetharam Kandarpa, Shaarkview [1]

Format: Live Virtual/ Face-to-Face

Learning Objectives:

- Learn the vital quality principles that drive proper CAPA.
- Determine when to initiate formal corrective action, and when not to.
- Write clear and actionable problem statements.
- Explore sample CAPA systems and records for best practices, and for potential weaknesses.
- Learn how to use a team approach to CAPA.
- Use various tools to perform process-based root cause analysis.
- Develop detailed actions to contain and prevent the problem.
- Identify opportunities for improvement in the participant’s organization that can be acted upon after the course.

Who Should Attend:

- This course is designed for quality managers, production supervisors, account managers, purchasing staff, quality technicians, and owners of a company’s CAPA system.
