  Format: Live Virtual/ Face-to-Face

  ASQ ConnEx™
  Advance your Excellence Journey

  This curriculum is designed for experienced quality professionals that are new or relatively new to supplier quality and supplier management.

  The course introduces you to foundational supplier management concepts and principles and teaches you how to design and implement a supplier management program. To ensure a robust, engaging learning experience, this course leverage case studies, individual and group activities, hands-on exercises, and knowledge checks to help you transform the conceptual into the practical.

  This course is also available as part of a curriculum. The Supplier Quality Professional: An Introduction curriculum includes three separate, interrelated courses: Introduction to Supplier Management, Auditing for Improved Supplier Performance, and Quality/Engineering Tools for Supplier Management. Save when you register for the curriculum and get all three courses in one!
